Supplementary materials index

These files explain the study that is already in the manuscript. They do not add a new experiment.

File	Role
Supplementary_Methods_and_Configuration.pdf	Algorithm, model settings, and reproducibility notes taken from ews.py and the manuscript.
Reference_Quartile_Record.xlsx	All 29 references, with the quartile record from the 24 October 2026 SCImago audit.
highlights.txt and Highlights.docx	The five highlights prepared for the Elsevier form. Each bullet is at most 85 characters.
Declaration-of-competing-interests.docx	The separate competing-interests file prepared for the Elsevier form. The same sentence is in the manuscript.
